New year, new hotels to lust over—at least, that’s what team *Traveler* gets excited about when one year rolls into the next. These openings—all slated for 2023—are getting us seriously psyched up for the travel opportunities stretching ahead of us.

In the next few months, long-awaited openings will crop up across the world: in [London](#) and [Paris](#); Texas and Hawaii; Indonesia and Japan; Burgundy and Brussels. We’ll keep updating this page as new hotels are announced.

## Hotels opening in winter and spring 2023

### Le Grand Mazarin, Paris, France

A new address in Le Marais is cause for excitement by those who love the city—and Le Grand Mazarin, an opening slated for spring, is no exception. Swedish designer Martin Brudnizki, who oversaw the legendary interiors at Annabel’s in Mayfair, has taken inspiration from the famous Parisian literary salons of the early 20th century, and there’s even a swimming pool—rare for this city.

*Opens spring 2023.*
