Lou Pinet, St Tropez - Opens for the Summer Season 23rd April 2021

Maisons Pariente's, Hotel Lou Pinet is exclusively positioned away from the hustle and bustle of Saint-Tropez, where guests are encouraged to wind down. Days can be spent lounging around the emerald swimming pool – the largest in Saint-Tropez, visiting the nearby beaches or winding down at the Tata Harper Spa. Once the sun sets, the fairy lights and lanterns light up the garden for magical evenings under the stars with fine dining at Riccardo Giraudi's Beefbar venue. At Lou Pinet, Charles Zana designed the spaces and passages around light to bring sophistication and intimacy to the forefront creating a hotel oozing subtle romance. The lush Mediterranean gardens include a lavender field to enjoy beautiful walks around, a herb garden, as well as three new large outdoor art installations. Lou Pinet is an intimate hideaway echoing the vintage Saint-Tropez spirit of the 60's and 70' where loved-up couples will dance the night away in the magical gardens, as the live music transports them to this vintage era.
